Vision

To be the most sought-after provider of Peace of mind & Pride of ownership in the field of Laboratory furnishing.

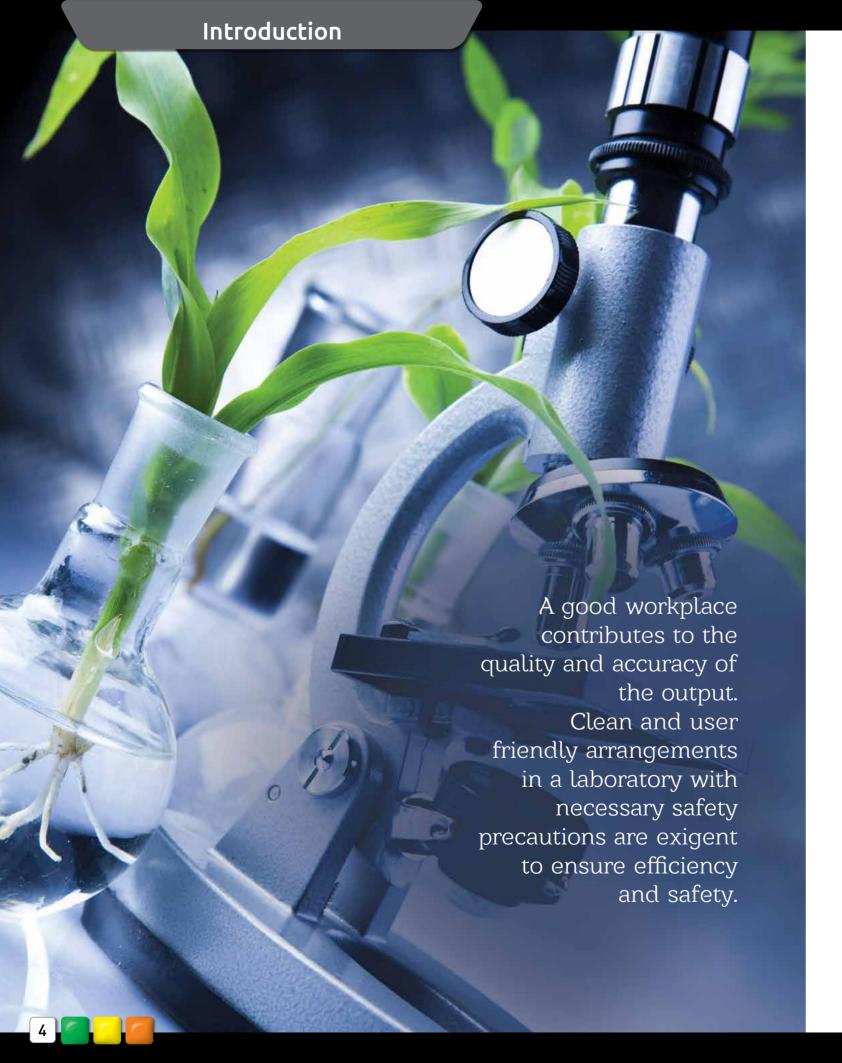

Mission

We value the trust of our customers. We commit to provide Peace of mind & Pride of ownership without any geographical boundaries by delivering high quality products and services. We strive to achieve it by improved designs, innovative technology and inspired man-power.

With the advancement of technology and science, the procedures in laboratory are much more complex than ever before. With a rightly designed fit-outs and specific equipments, the demands can be met at ease.

We, Team Zeba, provides complete solution for all your laboratory Engineering needs

We have specific solutions for every type of laboratories. The facilities are designed based on the application, availability of area, number of occupants, safety standards and also to suit the budgets.

Our experienced designers, with the use of state-of- the art software, can support in planning your most sought-after work place, where you brew your success.

Our uncompromising quality control, that starts right from the sourcing of raw materials which continues throughout our processes adds delight to our customers, who is the part of our proud clientele.

Our dedicated production team adopts modern techniques using latest precision machinery and committed to deliver world class products from our factory. Our commitment to customers persist even after the products leave our factory.

Our team of experienced technicians have won tonnes of appreciation from our customers for the professionalism and hassle-free installation of the project.

All our products carry a warranty for materials and workmanship.

the complete lab furniture

At Zeba, Research and Development is a continuous process. Our ISO 9001:2008 certified quality management system along with the practice of Total Quality Management (TQM) ensures smooth flow of the projects, right from the beginning, to the completion of the project and also to our after sales service.

Appreciation from our delighted customer towards our proven quality of products and services are the most important award for us.

We are specialized in designing and commissioning of laboratories for various disciplines such as

- Agricultural
- Archaeology
- Aviation and Space science
- Bio-technology, Pharma & Cosmetics
- Cement and concrete
- Container & mobile laboratories
- Educational institutions
- Fisheries
- Food & beverages
- Forensic science
- Hospital and health care

- Micro biology
- Paint and coatings
- Petroleum & oil
- Poly Film industries
- Research labs
- Robotics
- Testing services
- Textiles and garments
- Treatment plants
- Veterinary

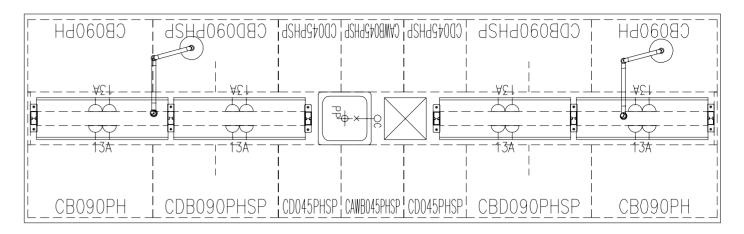

Workbenches can be constructed in different configurations. The furnishing systems are selected considering the nature of the laboratory, space and storage requirements, number of users, sitting and standing space, degree of flexibility and budget.

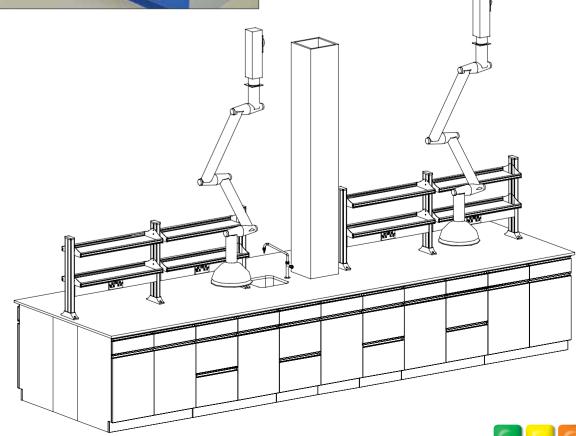

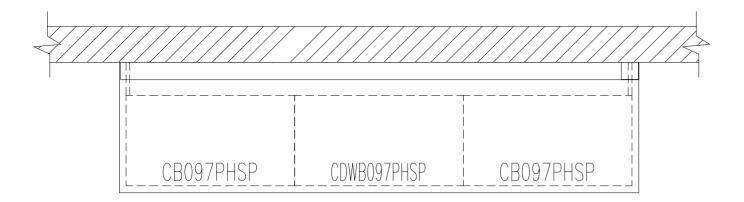

Island Bench

Free standing workbenches are placed away from wall to utilize the space effectively. It has accessibility from all four sides. Services needs to be brought from the floor or dropped from the ceiling.

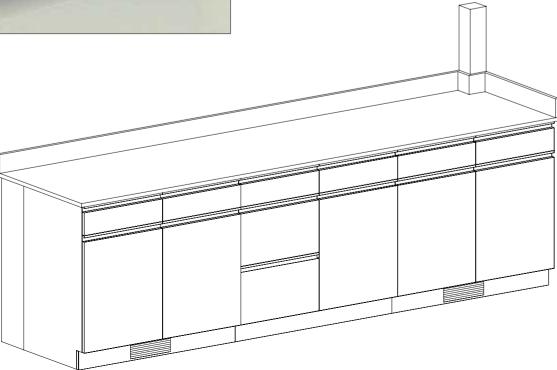

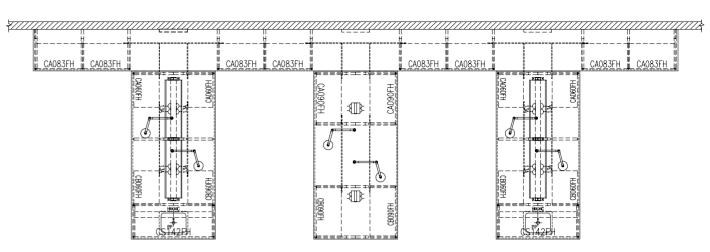

Wall Bench

Always installed in contact with the wall. Services can be provided either on the wall or on the workbenches.

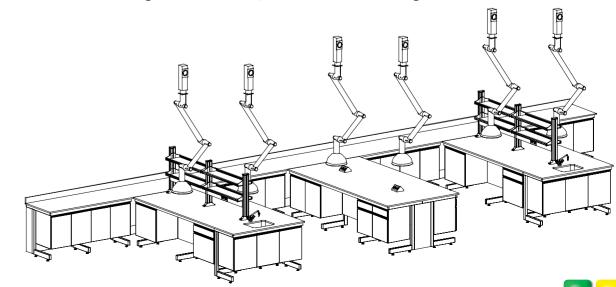

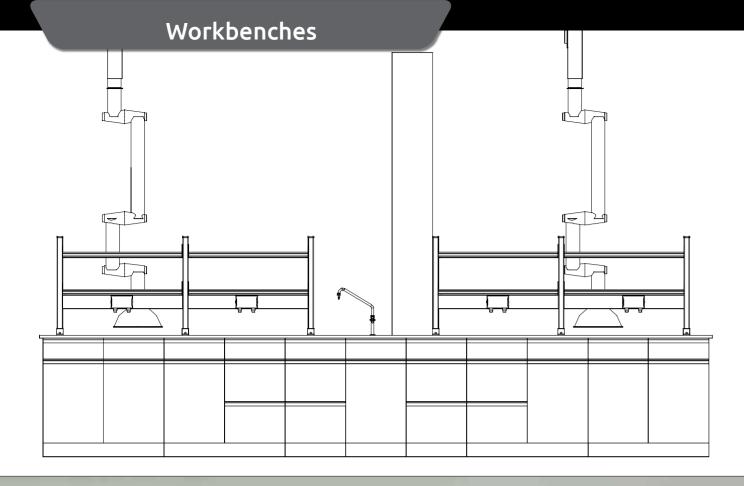

Peninsular Bench

A combination of Wall Bench and Island Bench. One side is close to the wall and is accessible from all three sides. Services can be brought out from wall, floor or from the ceiling.

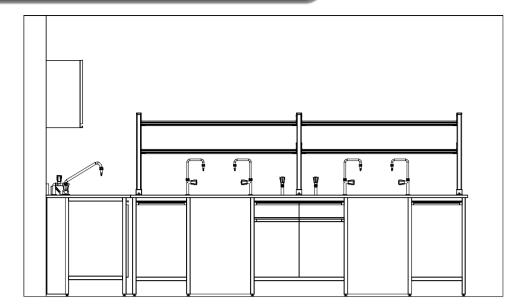

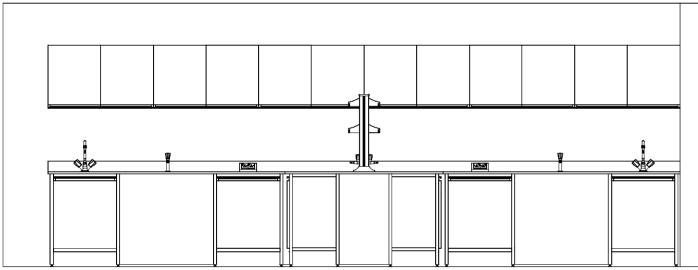

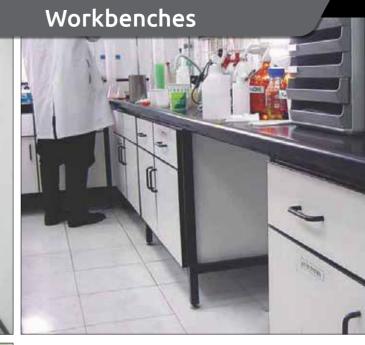

Prima SeriesThe worktops are installed on under-bench cabinets or panels. The cabinets are constructed with an integrated plinth of 100 mm to keep the cabinet bottom elevated from the floor. The cabinet rests on the floor without any additional support of frame work.

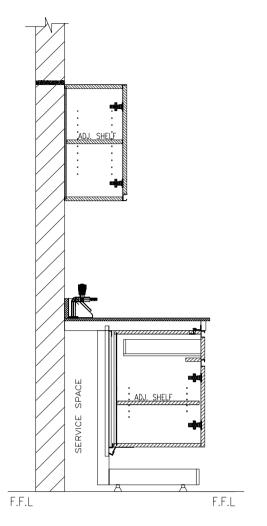

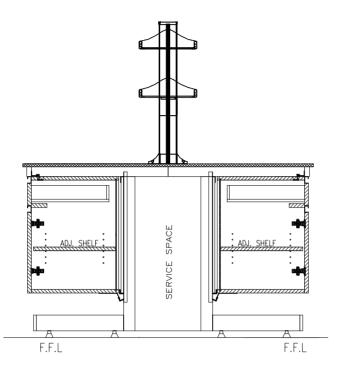

Vigor SeriesVigor Series - Designed to support heavier loads. Work tops are placed on metal frame works.
The 'H' frames are made from mild steel square sections. Under bench cabinets rests on frames.

Workbenches Workbenches

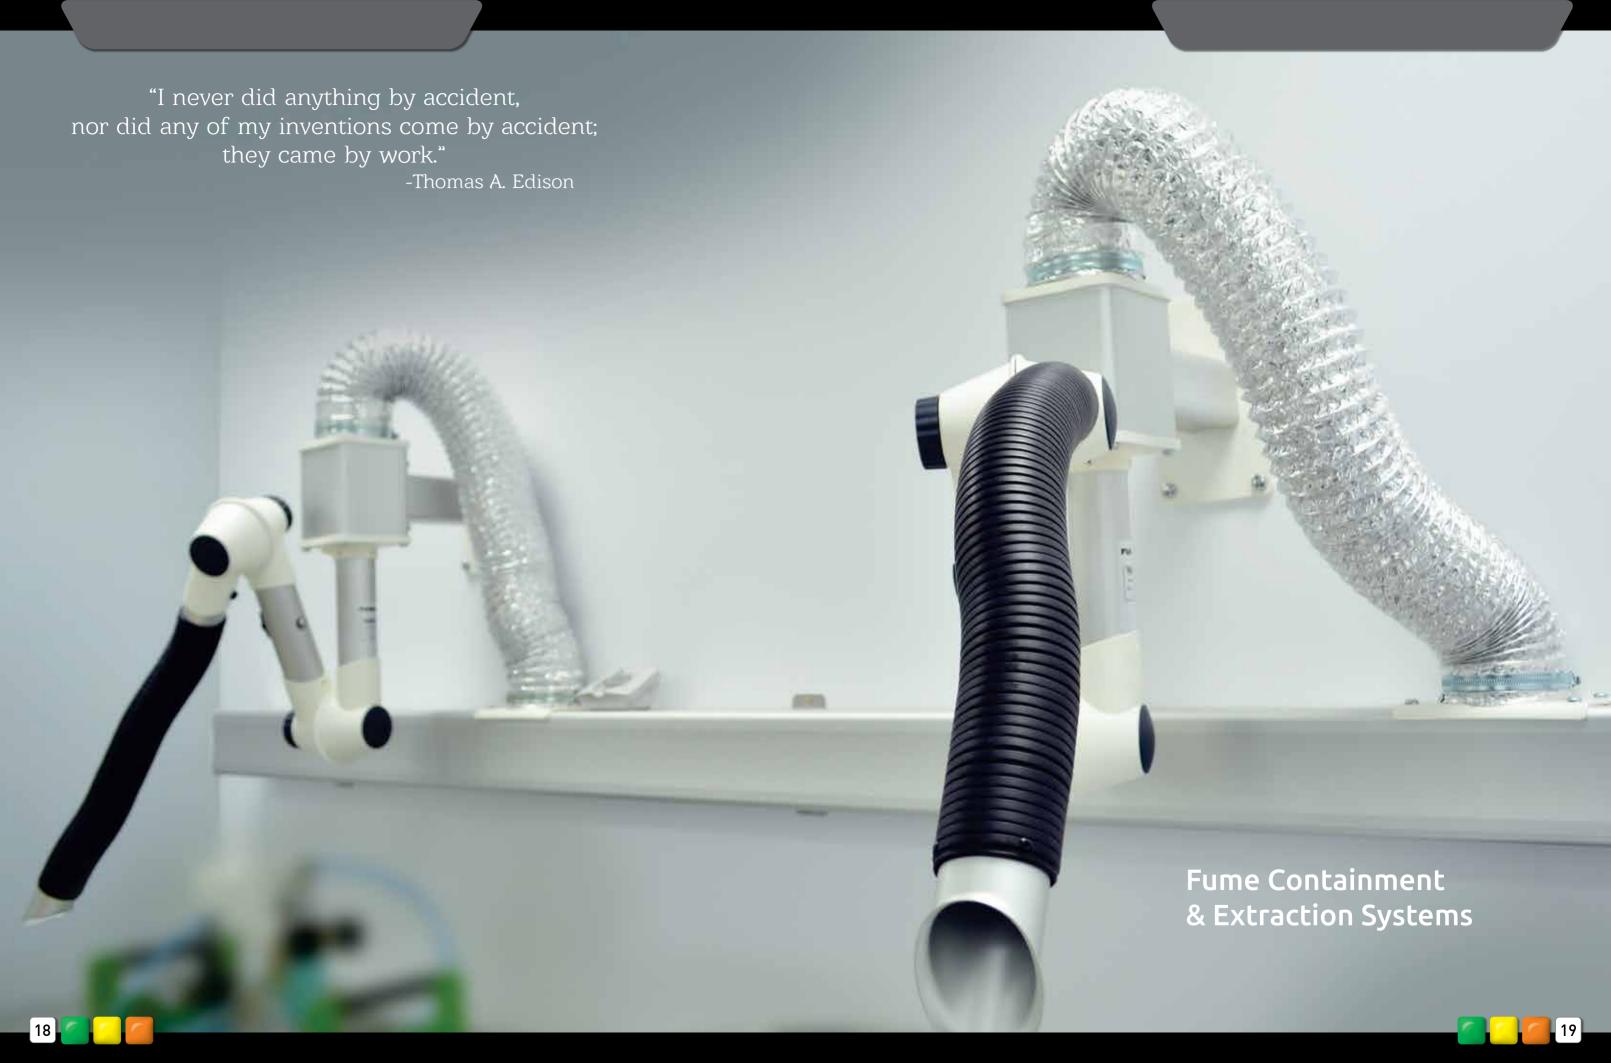

Flexi Series

Worktops are mounted on heavy duty cantilever metal frame.

Suspended cabinets or mobile cabinets shall be used with this system.
Thus, under-bench spaces can be organized by the user to adapt their needs easily without the help of a technician.
Ease of access to the service area is a special advantage of this series.

Fume Containment Fume Containment

degis

Standard Sizes

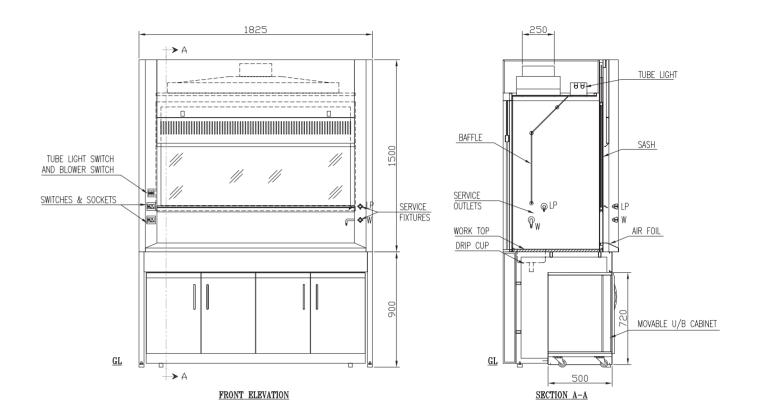

1225,1525,1825 mm. Custom sizes are also available.

Fume Containment

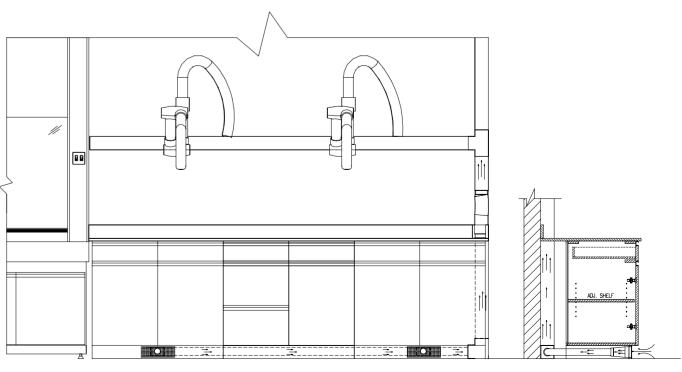

Walk-in Fume Cupboards

The double sash assembled walk-in-fume cupboards are designed to accommodate tall testing equipments to provide high headroom and safer workplace in hazardous environment.

Suction arm

Suction Arms can be fixed on wall/ceiling/worktop with adjustable arms and suction cup. The flexible arm system shall use friction joints and ball bearing for necessary grip and easy movement.

Ceiling mounted and wall mounted canopy hoods.

Canopy Hood

Worktops

Worktops

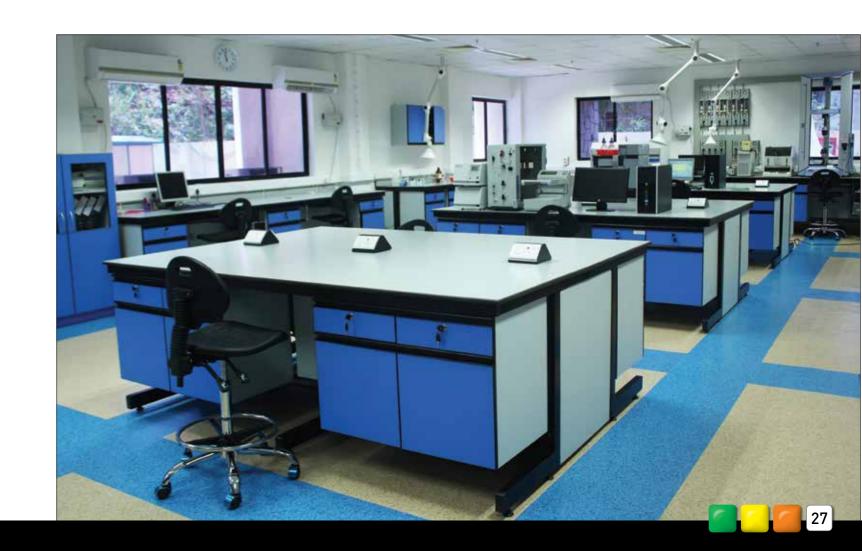

Worktops are the most used part of a laboratory furniture. Hence, it shall be selected carefully to suit the application, chemical resistance, thermal stability, impact resistance, durability, ease of sterilization, aesthetics and cost effectiveness.

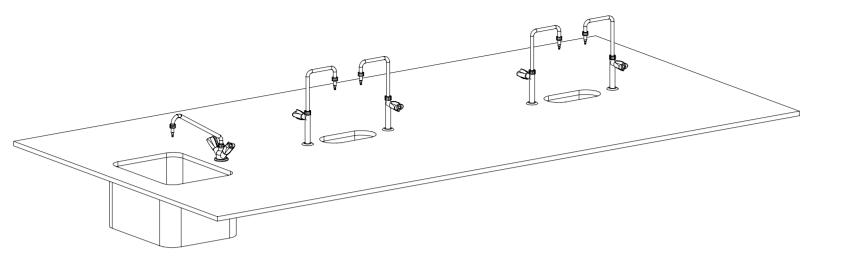

Features

- Phenolic Resin (Trespa)
- Epoxy Resin (Durcon)
- Melamine laminated plywood
- Compact laminate
- Polypropylene
- Stainless steel
- Acrylic
- Ceramic worktops
- Granite
- Solid timber

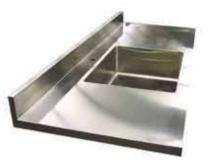

Sinks & Dripcups
Sinks & Dripcups

Sinks	Suitable worktops
Polypropylene sink	Polypropylene, Epoxy, Phenolic resin, Acrylic Melamine laminate, Compact laminate, Granite.
Epoxy sink	Epoxy, Phenolic resin
Stainless steel sink	Stainless steel, Melamine laminate, Granite.
Ceramic sink	Ceramic worktops

Blower & Filters Service Fittings

The service fittings are essential parts of workbenches to access the various utilities required in the laboratory.

- Cold water
- Hot / Cold / DM water
- Mixers
- Gases (H₂, O₂, N₂, He, etc.)
- Burning gases
- Vacuum
- Electricity

Service fittings are available in variants of stand-outs, drop down and wall mounted models.

Safety Fittings

People in laboratory are exposed to many occupational hazards and harmful substances. Conventional safety measures are taken in most of the places. In addition to that we offer safety fittings such as:

Anti-vibration Table Storage Systems

anti vibration table ACCURATE

These tables are made with heavy structure to absorb vibrations. The Scale platforms are mounted on specially designed anti-vibration pads.

Accurate anti-vibration table provides the most stable surface for precision balances and sensitive instrument.

Tall storages provide larger storage space.

For effective utilization of the wall space above the benches, wall cabinets can be used.

The standard width of these cabinets are 45cm, 60cm, 90cm and 120cm. Storage cabinets are available as open (without doors), with panel doors or with glass infilt doors.

Wall cabinets are also available with sliding glass doors.

Storage Systems Storage Systems

Chemical Storage Chemical Storage

A safe working environment is a primary concern in all workplaces. Laboratory staff routinely handles a variety of dangerous and health threatening substances.

Hazardous materials must be stored safely.

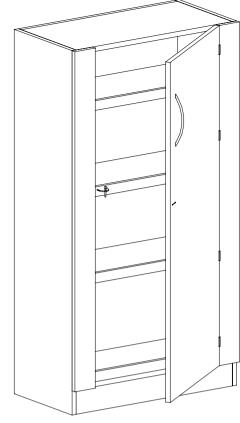

Chemstor cabinets are manufactured with no exposed metals parts. Units are constructed out of acid-resistant polypropylene. All joints are thermally welded by a special process without using metal fastners.

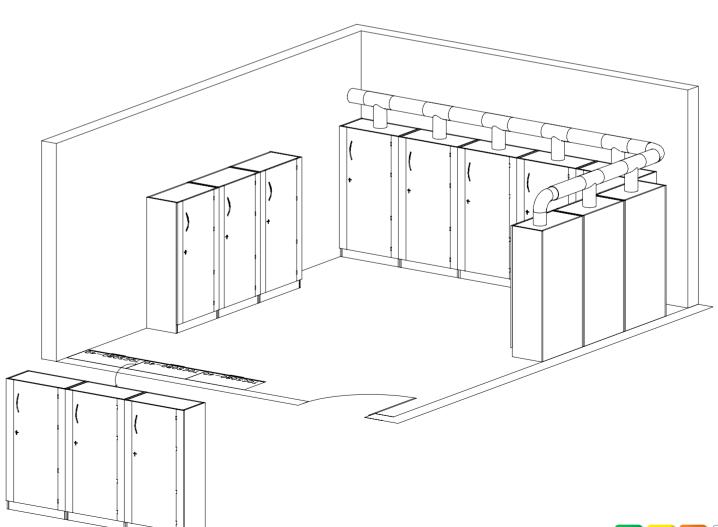

Chemstor

Chemstor chemical storage cabinets can be connected to an extraction system for continuous extraction of volatile gases. This is to make sure that the laboratory air is safe to breathe and environment friendly.
