BURGAN EQUIPMENT CO.

OUR MISSION AND VISION

Our mission and vision is to become a leading scientific equipment trading company achieving profitable growth, operational and organizational excellence without compromising from our values and business ethics.

OUR JOURNEY

Burgan Equipment Co. was established in 1976 with an objective of serving then anew nationalized oil industry starting with Kuwait Oil Company and Kuwait National Petroleum Co. and eventually became leader as equipment supplier in the field.

After Liberation of Kuwait, we diversified into Material Testing & Laboratory Equipment supply. The field was fast recovering with soaring demand. We effectively met demands of our government and private customers alike and provided prompt after sales services garnering their faith and long-term business in course.

With our expertise and success achieved in Kuwait after 23 years of operation, we expanded our activities and operations into other countries in GCC.; Qatar was our first stop in the year 1999 followed by UAE in 2003. We have local sales facilities in Oman and Bahrain as well.

Burgan Equipment, today, is one of the largest established group in material testing sector in GCC with stock worth over 10 million USD in our warehouses throughout the region.

QUALITY POLICY

BURGAN EQUIPMENT CO

**BEC
/IMS/Annex A**

IMS Policy

We commit ourselves to achieve this by:

- ❖ Timely completion of all projects undertaken, within budget and by attaining all applicable legal requirements whilst satisfying customer's needs consistently and cost effectively.
- ❖ Fulfilling commitments made to the internal and external customers in an effective and efficient manner, exceeding their expectations.
- ❖ Enhancing customer satisfaction by delivering high quality products and services in a timely, accurate and reliable manner.
- ❖ Promotion of awareness, understanding and care of Quality, Environmental and Occupational Health & Safety objectives within the organisation through direct involvement of top management of Burgan Equipment Co. We are implementing a pro-active Integrated Management System to achieve the Quality, Environmental and Occupational Health & Safety objectives by identifying significant aspects that effect the functioning of the organization, identifying environmental aspects of organization's activities and assessing work place hazard risks, respectively, reducing inherent risks and impacts to a manageable level thereby avoiding any accidents or impacts and consequential costs and liabilities.
- ❖ Undertaking preventive measures to personnel injuries, property loss and environmental incidents by making IMS objectives an integral part of all business activities, thus significantly contributing to ultimate profitability.
- ❖ Demonstration of a continuous improvement in our day-to-day operations to achieve target of "zero incidents".
- ❖ Adherence and compliance with local and Kuwait Ministerial Regulations in a socially responsible manner.
- ❖ Upgradation of our staff and their competency through training laying emphasis on their individual IMS obligations, as well as communication to stake holders of the organization about the policy and their individual IMS obligations.
- ❖ Sustenance of relationships with suppliers and customers.

**MARWAN HH ALESSA
MANAGING DIRECTOR**

**AJITH KUMAR
GENERAL MANAGER**

WE ARE PROUD OF :

- * **45 years of customer satisfaction**
- * **5 GCC nations**
- * **Largest inventory in the country with over 3500 units**
- * **Wide range of products**
- * **Represent principals from USA, Italy, Germany, UK, and more**
- * **Regular and eminent customers**
- * **Shortest order-to-delivery period**
- * **Reputed after sales follow ups and technical support.**

Our expertise lies in supply and maintenance of Materials Testing equipment, Civil Lab Equipment and Scientific Laboratory Supplies. With over 3500 units in our inventory, we are biggest stockist in Kuwait of equipment for Material Testing, Quality Control, Laboratory supplies including products for environmental monitoring, products used in fields of research, medicine, pharmaceutical, agriculture, water analysis, and education.

We are the largest distributors for quality control/research equipment for construction industry in Kuwait. We have been regular supplier to the Government Centre for Testing and Research (Ministry of Public Works), the authority responsible for testing the materials used in construction projects in Kuwait.

PRODUCTS

- | | |
|--|--|
| * Material Testing Equipment | * Meteorological, Oceanographic, Hydrographic monitoring Solutions. |
| * Superpave Asphalt Lab and Field Equipment | * Consultancy, GIS, EIA, Environment Data Collection Solution |
| * Environmental Equipment | * Gas and Flame Detectors |
| * Marine Stations & Navigational Aids | * Oil Testing Equipment |
| * Laboratory Furniture & Supplies | |

SERVICES

- | | |
|---|--|
| * Preventative maintenance | * Warranty replacement, update |
| * Prompt service | * Factory trained engineers and technicians |
| * Periodic visit to customer site in GCC countries | |
| * On demand online assistance and training | |

MATERIAL TESTING EQUIPMENT

We deliver complete solutions in Material Testing from laboratory engineering to supply of equipment for testing soil, aggregate, concrete, cement, asphalt, bitumen, mortar pavement and more. We also provide equipment and complete site laboratories to construction contractors for destructive and non-destructive testing on building structure, roads and pavements. We provide material testing equipment from:

CONTROLS S.R.L, ITALY

Controls is leading manufacturers of Testing Equipment for construction industry. They supply equipment for testing soil, rock, aggregates, concrete, aggregates, cement, steel, asphalt, bitumen etc.

CONTROLS Group has, for many years, been an active member of all the main international standard organizations, including ISO, EN, ASTM, AASHTO and AWRG.

[CIVIL LAB]

ENDECOTTS LTD., U.K

Manufacturers of Sieves, Sieve Shakers and Sample Splitters. They offer finest particle analysis equipment designed and produced to meet international standards and are supplied globally. The levels of certification meet international standard and every industrial specification, including ISO 3310 and ASTM E-11, around the world. [CIVIL LAB]

GENLAB LTD., U.K.

Manufacturer of Ovens, Incubators & Drying Cabinets from 6 ltr up to 1250 ltr. Drying ovens are purpose built for large quantities of soils and aggregates and meet the requirements of both BS and ASTM. Loss on heat/Thin Film oven is designed for Bitumen & Asphaltic materials and complies with BS, ASTM & AASHTO [CIVIL LAB]

Endecotts Standard Woven Wire Mesh Sieves are available in these sizes

International Test Sieve Series

ISO 3310-1

Nominal Aperture Sizes

HUMBOLDT MFG. CO., U.S.A.

Humboldt is leading manufacturer and supplier of construction materials testing equipment used extensively throughout the world for testing soil, concrete, cement, asphalt and aggregate in construction projects. Humboldt is known for manufacturing high-quality, competitively-priced equipment designed to comply with ASTM and AASHTO testing standards.

[CIVIL LAB]

Marshall Compactor, Auto, Rotating Mold Configuration, Heavy Duty from Humboldt Mfg. Co.

OHAUS EU, MIDDLE EAST & AFRICA

Manufacturer of Mechanical Scales, Electronic Balances and Standard Weights. A wide range of products is available including portable electronic balances, Heavy Duty Balances, Moisture Determination Balances, Industrial Balances, Analytical Balances, etc. The Discovery, Analytical, Voyager, Explorer and Adventurer Series Balances are high precision top loading with interchangeable display/key pad controllers. A range of certified calibration weights are available from Ohaus.

Products from OHAUS

PROCEQ, SWITZERLAND

Manufacturer of Non-destructive Testing Equipment such as Schmidt Hammer, Equotip Hardness Tester, Resistivity Meter to test resistivity of concrete, Rebar Locator (Profometer), Canin Corrosion Analysis Instrument, Torrent Permeability Tester, Dyna-Extraction Tester to measure pull-out force on anchored bolts, TICO Ultrasonic Instrument for Testing Concrete Components

Range of advance pavement testing equipment from Controls Group

SUPER-PAVE ASPHALT LAB

AND FIELD EQUIPMENT

We provide equipment for each stage of testing for Superpave asphalt mixture and provide lab installation service along with necessary training. With our agency agreement with organizations like Controls Group Italy, Humboldt Mfg USA and Rheotest we assure our customer original spare parts supply. In addition, our engineers are trained and certified by the principal themselves.

APPLIED TEST SYSTEMS, USA

Manufacturers of Bending Beam Rheometer, various material testing equipment, ovens, environmental chambers etc. ATS offers custom solutions that are reliable, accurate and user friendly. The ATS calibration laboratory is accredited to ISO/IEC 17025:2005 by the American Association for Laboratory Accreditation (A2LA). Applied Test Systems is a ISO 9001:2015 Certified Company .

ARRB SYSTEMS, AUSTRALIA

ARRB Systems is the global market leader in providing equipment and services for road assessment survey. Our modular systems are designed to enable multiple data collection sensors to meet and exceed the toughest pavement and asset management specifications.

FUNGILAB, SPAIN

With more than 30 years of experience in the viscosity world, Fungilab has become a leading manufacturer and supplier of quality control equipment for viscosity measurement.

IPC GLOBAL CONTROLS GROUP

Advanced pavements testing division of Controls Group. The result of a powerful union between CONTROLS Group and IPC Global, the newly formed division continues to lead the industry as the only one-stop supplier of advanced, static, dynamic and binder testing systems conforming to International Standards, and deliver first-class pre-sales and post-sales technical services. Reliable performance-based testing of asphalt and bitumen are key factors for optimal design and construction of durable roads. IPC Global Controls Group provides a complete one-stop range of advanced static and dynamic bitumen/asphalt/pavement testing systems.

RHEOTEST MEDINGEN GMBH, GERMANY

Manufacturers of instruments and appliances for measuring, testing and navigation. Products include elasticity measuring instruments, viscosity measuring instruments; component and accessories for precision measuring instruments.

SWECO DANMARK A/S

Falling Weight Deflectometers from Sweco Pavement Consultants (PMC) are developed by pavement experts and are based on more than 50 years of experience. Reliable and accurate equipment allows pavement engineers worldwide to measure road and airport pavements with state-of-the-art quality equipment and to get reliable data to form the basis of their work with designing new structures and calculating maintenance PRIMAX-series solutions.

LABORATORY AND SCIENTIFIC EQUIPMENT

By supplying consumables, glassware, reagent chemicals and various scientific – laboratory equipment, we have proudly supported educational laboratory needs of major universities in the country. Our clientele includes Kuwait University, College of Technology, Kuwait Institute for Science and Research, etc. We have supplied experimental models of educational/training equipment of various engineering faculties to various engineering colleges.

ASCOTT ANALYTICAL.

Specialist manufacturer of corrosion test cabinets. Today we're one of the leading suppliers of salt spray cabinets and cyclic corrosion cabinets in the World

ARALAB, PORTUGAL

Aralab has a range of climatic test chambers that are fully user-oriented. testchambers; Metrology - temperature and humidity calibration; Solar panels testing .etc..

Testo Smart Probes

BIBBY SCIENTIFIC., U.K

Manufacturer of Stuart, Techne, Jenway and Electrothermal brand of products. Applications for the products are diverse and include areas such as medical, pharmaceutical, food manufacturing, agricultural, water related

Spectrophotometer 6305 supplied by Bibby Scientific

CASELLA CEL LTD., U.K.

Manufacturer of highly specialized equipment to monitor pollutants like asbestos, dusts & particulate, gases & a pours, noise & vibrations, toxic metals & radon,

FRITSCH GMBH, GERMANY

Manufacturer of laboratory equipment for milling, particle sizing and sample dividing a range of Fritsch Mills can process 99% of all samples in any laboratory – whether hard, brittle or soft elastic - down to analytical fineness.

NEURTEK INSTRUMENTS, SPAIN

Manufacturers and distributors of equipment for Quality Control and R&D&I. like automotive, aerospace, linings, research centres and many more.

SATO KEIRYOKI MFG. CO. LTD. JAPAN

Manufactures of anemometers, thermo hygrographs, barographs, max.-min. Thermometers, altimeters, psychrometers, sensors for wind speed and direction, air temp., humidity, barometric pressure, rainfall, insolation, rainfall intensity, etc.

LABORATORY AND SCIENTIFIC EQUIPMENT

SENTEK LTD., U.K

Manufacturer of PH Electrodes, Conductivity Cells, PH Buffer Solutions and Conductivity Standards. The electrodes are available for a wide range of applications.

TESTO AG., GERMANY

Testo offers full range of measuring instruments to measure temperature, humidity, pressure, air velocity, Rpm, Lux, Sound, Thermal Imaging Cameras, Fuel gas analyzers etc.

TINTOMETER GMBH., GERMANY

The Lovibond range from the Tintometer Group offers a single source of instruments, reference materials and reagents for water testing and colour quality.

OIL TESTING EQUIPMENT

AMETEK INC SPECTRO SCIENTIFIC USA

Suppliers of oil, fuel, and processed-water analysis instrumentation and software. Spectro Scientific manufacturers elemental OES analyzers for fuel testing, Particle/Ferrous wear analysis, Kinematic viscosity, Soot, TOG/TPG analyzers for various Oil/Lubricant industries

XEBEX INTERNATIONAL LTD., JAPAN

Supplier specializing in export sales of laboratory, analytical, scientific, measuring and testing equipment, etc.

GAS AND FLAME DETECTORS

Specialists in supply of Fixed and Portable Gas Detectors, Flame Detectors and Fire and Gas systems that Protect from Combustible, Toxic and Flammable environment.

3M GAS & FLAME DETECTION

Manufacturers of fixed Gas and Flame detectors. Oldham Gas Detectors Systems.

LABORATORY FURNITURE

ZEBALABS

ZEBALABS

Designing, Manufacturing and Installation of Laboratory furniture & Fume hoods. Completed More than 500 projects spread over 25 Nations.

Laboratory Furniture by Zeba Labs

MARINE DIVISION

***We deliver Buoys and equipment for early warning systems, AtoNs, ODAS, Sampling and Survey.
We collaborate with illustrated suppliers and manufactures:***

MICROSTEP-MIS

Develops, manufactures and markets monitoring and information systems. key fields of activities are meteorology, aviation, environmental sciences, seismology, tourism, power engineering and civil defense.

HYDROBIOS GMBH

Hydro-Bios - Smart sampling!
High Quality Instruments for Sea and Ocean Technology
Applications since 1960

TRIDAL TECHNOLOGIES

Environmental solutions with integrated competences of environmental science, engineering, and technology.

BUOY NETWORK FOR MARINE POLLUTION MONITOR AND EARLY WARNING APPLICATIONS IN ARABIAN GULF

We designed, supplied for and commissioned three-year long installation and maintenance of buoy network for Kuwait EPA that started in 2015. The system consists of :

- Oceanographic Buoy System
- Data Collection, communication and processing units (Data logger)
- Software
- Power system and management units
- Sensors

Types of Sensors

- | | |
|----------------------------------|---------------------------|
| • Wind Speed and direction | • pH level |
| • Atmospheric Temperature | • Heave |
| • Relative Humidity | • Turbidity |
| • Solar Radiation | • Oil Spill |
| • Pressure | • Heavy Metals |
| • Current Direction and velocity | • Dissolved Oxygen |
| • Water Temperature | • Algae Brown |
| • Salinity | • Chlorophyll |
| | • Nutrient concentrations |
